Software solutions for weighing systems

WRA 28395

**Key**

1. Camera for automatic number plate recognition
2. Led display for showing information for driver
3. Cameras for automatic container code recognition

GS SOFTWARE

# GS SOFTWARE IS A PRODUCER OF WEIGHING SYSTEMS WITH:

## ✓ Automatic Container Code Recognition

**GSW Software can automatically recognise the number of container. High efficiency of recognition, support of International Convention for the Safety of Life at Sea (SOLAS).**

## ✓ Automatic Number Plate Recognition

**GSW Software has implemented a powerful mathematical engine, which recognises number plates. High recognition rate - over 97%.**
